TECHNOLOGIES DEVELOPMENT HISTORY

Tatiana Petrovna Konopleva

Academician of medical and technical sciences and an expert in the field of bioresonance. She managed to bring the application of bioresonance technologies to a new level. Her belief in the comprehensive approach to health protection and recovery has made the technology more accessible for ordinary people. Dr. Konopleva continues educating the public about the correct and efficient use of bio-resonance technologies.

Agnieszka Zaleska

Director of Deta Elis Greece
Head of Promotion in Europe

Since 2013 she has taken over the leadership of Greece, which has become the core of development of all European countries. Doctor of European History from the University of Moscow, Russian Federation. Philologist of Polish & Russian Language. Pedagogue. Many years of experience in the organization, management and development of global companies. Holder of numerous management and company promotion credentials. Expert in market analysis. Under her leadership, Deta-Elis established itself on the European market.

ABOUT THE TECHNOLOGIES

DeVita technologies are based on bio-resonance therapy methods developed by Russian and foreign scientists. They work on two basic principles:

- The Support principle is embodied in the devices DeVita Ritm+, DeVita Energy 11 and DeVita Cosmo. These devices generate electromagnetic field impulses in the low frequencies range, which coincide with physiological and regulatory frequencies of our body. Each of the programs creates the resonance in the relevant organs and systems.
- The Immune support principle is embodied in the device DeVita AP+. Its action is based on the emission of electromagnetic waves which resonate with the vibrations of various parasites: from viruses to helminthes. DeVita AP+ helps the immune system to neutralize pathogens. This gives the body the opportunity to function naturally that gives the body the opportunity to function naturally unaffected by external factors or conditions.

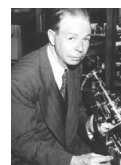

SCIENTIFIC DEVELOPMENT

Deta-Elis Company has been in development for more than 20 years. The company began its exploration of the devices based on the research of the following esteemed scientists:

Alexandr Gavrilovich Gurvich

The scientist who established the fact that any organism consisting of many cells has an electromagnetic field generated by those cells. As a result, the electromagnetic field of the individual organism comes into existence, and this field is essential for the organization of physiological processes.

Royal Raymond Rife

Fixating individual frequencies of various pathogens and inserting them into resonance, Rife showed a new method of struggle against dangerous microorganisms. It is worth noting that such exposure is safe for human cells. The scientist has created an extensive list of frequencies of microorganisms affecting the human body.

Reinhold Voll

Voll found that therapeutic effect of electrical currents at acupuncture points depend on their frequency. And even the slightest change in frequency may have different therapeutic effects. Contributions to the development of this study were also made by such scholars as F. Kramer, O. Klaus and P. Schmidt.

Helmut Schimmel

Schimmel, the founder of the modern BRT-method, diminished the number of working points down to one and transformed the principle of measurement "placing the organs into ampoules". Before Schimmel, the condition of the organs were measured via different points. Now only one "reproducible" point is the source of information and the drug-indicators are tested directly at this point.

THE HOMO-TOXICOSIS THEORY OF DR. RECKEWEG

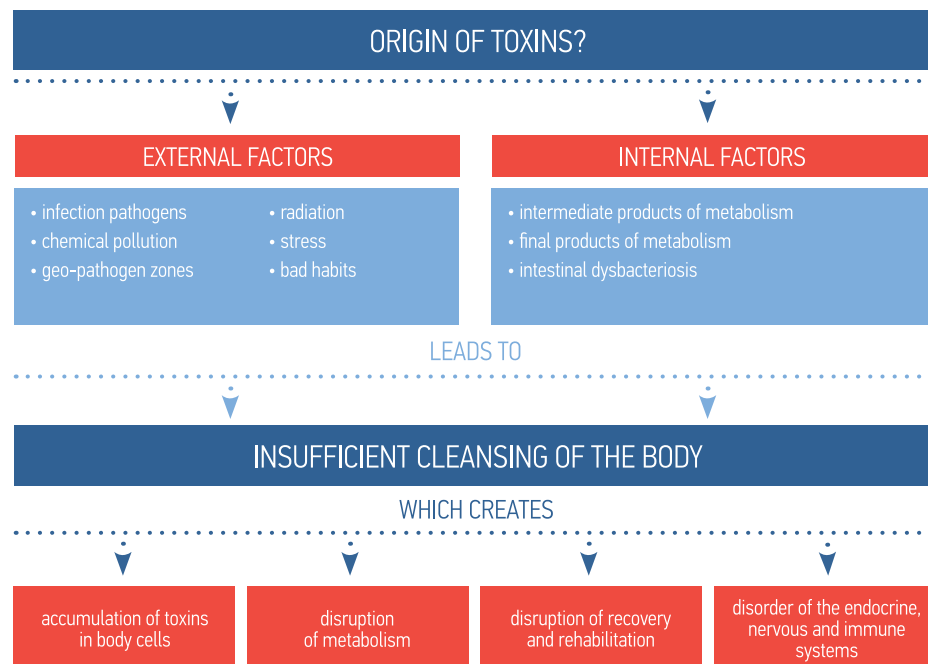

Heinz Heinrich Reckeweg,

MD, researcher.

Dr. Reckeweg created the homo-toxicosis theory which considers toxins as the main source of health problems. Dr. Reckeweg was the founder of the new direction in health improvement and recovery, which puts at the forefront the body's cleansing and detoxification.

Deta-Elis Company has successfully worked with this theory for a number of years: all body toning programs in DeVita devices are created according to the method of Dr. Reckeweg, who believed that all human illnesses are the consequence of the accumulation of homo-toxins. Toxic substances (homo-toxins) cause defensive reactions in the human body, which are manifestations of the disease. Homo-toxins, as considered by Dr. Reckeweg, are chemical, bio-chemical, physical and psychical factors that disrupt human health. According to the homo-toxicosis theory, the toxins can have either external or internal origins.

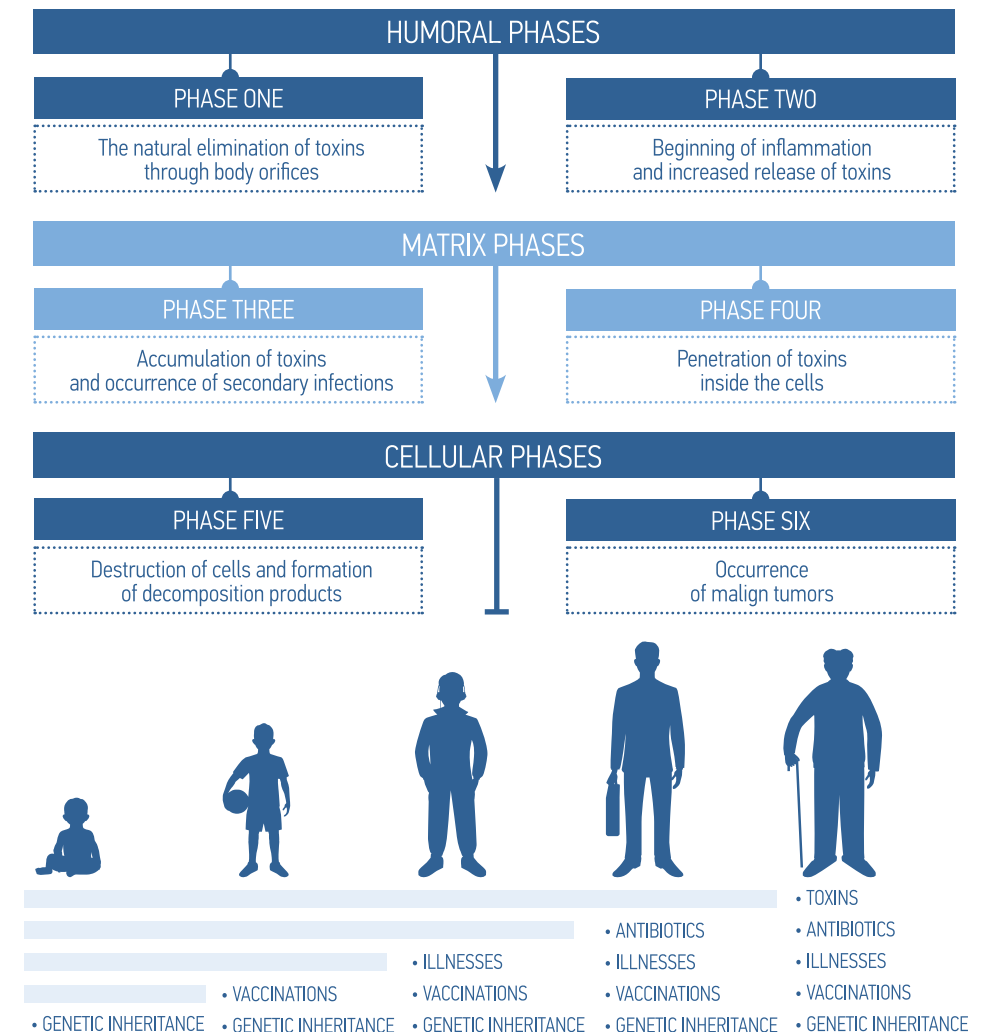

HOW DOES THE INTOXICATION EMERGE?

HOW DOES AN ILLNESS DEVELOP?

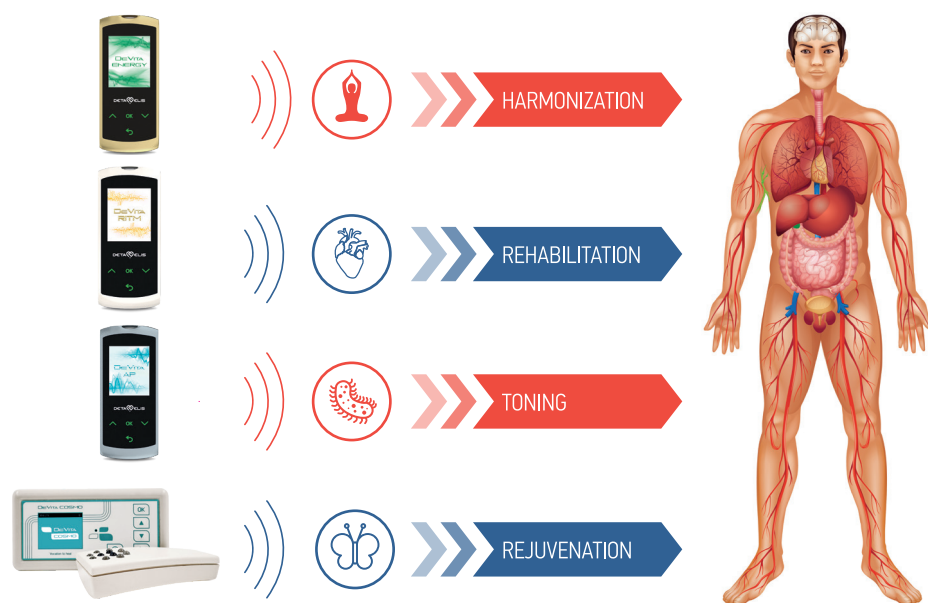

Dr. Reckeweg identified 6 phases of the passage of homo-toxic reactions. Each phase reflects a lesion of deeper structures of the body and more severe changes. For the first two phases the body detoxifies itself adequately without harm for its livelihood. During the third and fourth phases the toxins accumulate in the body tissues which become super-saturated with them. At the fifth phase irreversible consequences begin which can lead to very sad circumstances.

THE SIX PHASES OF DEVELOPMENT OF THE BODY'S REACTION TO TOXINS

HOW DO THE TECHNOLOGIES WORK?

According to the homo-toxicosis theory the recovery process follows in reverse order. It is very important not to miss all the "points of the recovery". DeVita technologies help in the process of deep cleansing of the body and contribute to the removal of the symptoms, up to the full elimination of the problem.

PRINCIPLE OF OPERATION

DeVita technologies are based on irradiation of super-weak electromagnetic waves which influence the whole body and individual organs due to the bio-resonance effect. The bio-resonance is strengthening the natural oscillations of organs due to electromagnetic waves of the same frequency. Bio-resonance irradiation of the DeVita devices can be estimated by an oscillograph, the instrument for monitoring and measuring the electromagnetic waves.

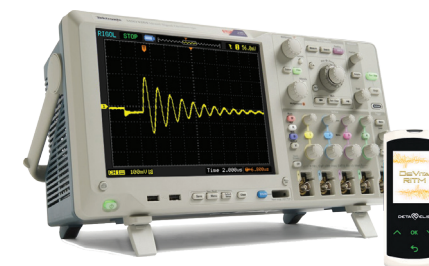

ELECTROMAGNETIC ACTION OF DEVITA AP+

With the help of special frequencies, the immune system gets support to deactivate harmful microbes and to remove them safely through the excretory systems of the body.

BIORESONANCE ACTION OF DEVITA RITM+

This is similar to electromagnetic oscillations of healthy organs. The organs of our body are constantly affected by pathogenic oscillations and lose their healthy rhythm. DeVita Ritm+ 'readjusts' the organs to the healthy oscillations.

ELECTROMAGNETIC ACTION OF DEVITA ENERGY 11

The action of this device is based on the principle of 'floating frequencies'; such radiation is quickly and efficiently perceived by the body. That's why the DeVita Energy 11 device restores vitality and energy of the organism.

DEVITA AP+ MODEL MINI

DeVita AP+ Mini is a device that contributes to strengthening the immune system in the process of fighting pathogenic microorganisms. Its action is based on the emission of electromagnetic waves, which are coordinated with the oscillations of various kinds of parasites, from viruses to helminths.

- With 29 PRE-INSTALLED PROGRAM COMPLEXES, each of them contains a mix of manual and automatic programs!
- Includes the DeInfo MINI frequency library!
- Ability to create 50 different folders, with a capacity of each folder of fifty programs (manual and automatic).

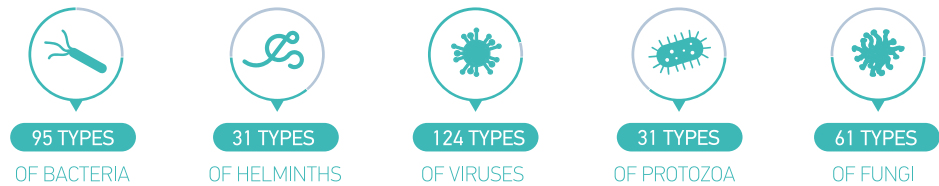

DeVita AP+ Mini is an appliance for health support.

RECOMMENDATIONS FOR USE

The DeVita AP+ device is a generator of floating radio frequencies, identical to the radiation of natural organic systems. Designed to enhance its own protective forces and adjust the natural electromagnetic radiation of natural biosystems. The principle of corrective action is based on the use of frequencies by R. Rife, R. Voll, F. Morell.

THE DEVITA AP+ MODEL MINI HELPS THE IMMUNE SYSTEM IN:

FEATURES OF EXPOSURE

DeVita AP+ Mini – action based on the results of research of scientist and engineer R. Reif and his followers who have proven that every living organism has its own electromagnetic radiation. The device emits waves of a certain frequency, which come into resonance with the radiation of the microorganism, increases its natural oscillations, to strengthen the immune system in the work of neutralizing pathogenic microorganisms.

Features of the DeVita AP+ Mini:

- Helps the body to fight bacteria, fungi, protozoa, viruses and helminths.
- Helps in the deep cleansing of the body.
- Promotes immunity, protects against seasonal colds.
- Improves the condition during allergic reactions.

COMMON HEALTH PROBLEMS

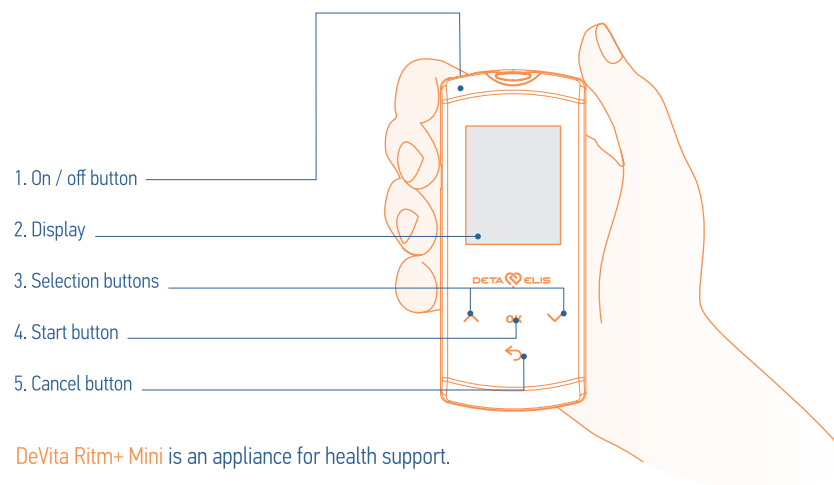

DEVITA RITM+ MODEL MINI

DeVita Ritm+ Mini is a device that harmonises the function of the organs and systems of the body. The device produces low-power electromagnetic field pulses within which our body's normal and functional frequencies are.

- With 26 PRE-INSTALLED PROGRAM COMPLEXES, each of them contains a mix of manual and automatic programs!
- Includes the DeInfo MINI frequency library!
- Ability to create 50 different folders, with a capacity of each folder of fifty programs (manual and automatic).

DeVita Ritm+ Mini is an appliance for health support.

DEVITA RITM+ MODEL MINI IS USED FOR:

GENERAL
FATIGUE

WEAKENED IMMUNE
SYSTEM

PROBLEMS WITH
SKIN AND HAIR

INCREASED
MENTAL STRESS

PSYICAL EXERCISE/
TRAINING

FEATURES OF EXPOSURE

DeVita Ritm+ Mini is a device that harmonizes the work of organs and systems of the body. The device generates pulses of an electromagnetic field in the low frequency range, in which the physiological and regulatory frequencies of our body fit. Each of the programs resonates in the necessary organs and systems, providing additional energy for healing and harmonizing the body's work.

Features of the DeVita Ritm+ Mini:

- Helps to set the internal organs to normal function, enhances immunity.
- Helps to improve blood circulation, to reduce tension in the spine and to regulate digestion.
- It is useful for students: improves memory, concentration, reduces eye fatigue.
- Contributes to keeping the muscle tone and to the recovery of the body after exercise.

THE MOST DANGEROUS HEALTH PROBLEMS

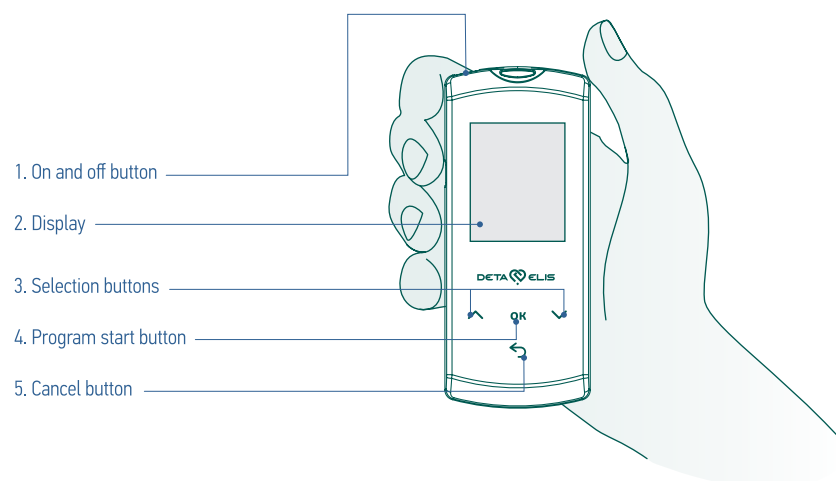

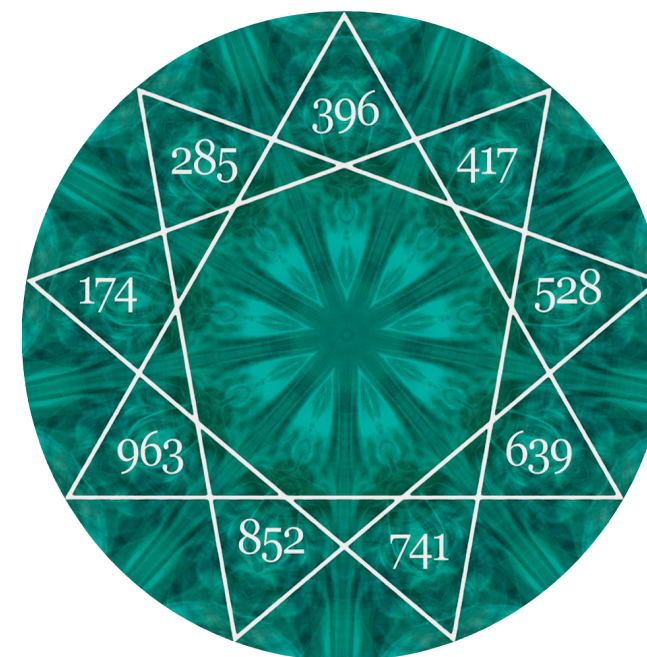

DEVITA ENERGY 11

The Energy device emits the so called floating frequencies, which are the combination of harmonic and square frequencies.

An electromagnetic field of floating frequencies produces one main effect: stimulating cell membranes. This effect causes a chain of processes that leads to the improvement of health without side effects. A cell produces its own energy, called ATP (Adenosine Triphosphate). To produce energy, a cell needs oxygen and about 90 other substances, including enzymes, glucose, and nutrients. To be able to execute and control all these processes properly, good cell metabolism is required.

ENERGY 11 — SOLFEGGIO FREQUENCIES!

One unique feature of the Energy device is that it includes the famous acoustic Solfeggio frequencies in electromagnetic form.

Solfeggio frequencies, ranging from 174 Hz to 963 Hz, offer unique wave patterns that promote relaxation, stress relief, and overall well-being.

These frequencies have been shown to positively impact mental, emotional, and physical health by generating vibrations that help achieve a state of calm and balance.

- 396 Hz** = liberation from guilt and fear
- 417 Hz** = undoing situations and simplifying change
- 528 Hz** = transformation and miracles
- 639 Hz** = harmonizing relationships and inner balance
- 741 Hz** = living healthier and driving changes in lifestyle
- 852 Hz** = return to the mental and spiritual order
- 174 Hz** = calming, grounding, pain relief
- 285 Hz** = renewal of energy fields and rearrangement
- 963 Hz** = divinity, pineal glands, spirit

RECOMMENDATIONS FOR USE

The DeVita Energy 11 device is a generator of floating radio frequencies, identical to the radiation of natural organic systems. It is designed to enhance its own defenses and correct the natural electromagnetic radiation of the body's natural biosystems. The principle of corrective action is based on the use of frequencies according to the methods of modern scientists, engineers and physicists.

DEVITA ENERGY 11 NEW IS APPLIED WITH:

EXTENSIVE PHYSICAL AND MENTAL STRESS

PSYCHOLOGICAL STRESS, DEPRESSIVE STATES, PANIC ATTACKS

HIGH FREQUENCY IMPACT: WI-FI, 4G, 5G AND HOUSEHOLD DEVICES

LIMITING BELIEFS, NEGATIVE ATTITUDES AND FEARS

SOCIAL AND PSYCHOLOGICAL PROBLEMS

FEATURES OF EXPOSURE

DeVita Energy 11 is a device that contributes to fighting various types of stress, harmonizing a person at the physiological, psychological and social levels, maintaining general energy and adaptation reserves, protecting against household, geo - and biopathogenic factors.

DeVita Energy 11 features:

- restores the energy potential of damaged organs;
- increases the general level of vital energy;
- balances the psycho-emotional state;
- helps to remove hidden emotion blockages, fears;
- promotes the disclosure of creative abilities;
- expands the possibilities of communication, mutual understanding, tolerance and love;
- promotes rejuvenation.

WHY DO THE HEALTH PROBLEMS OCCUR?

“DEVITA ENERGY 11” 8 EXISTING AND 3 NEW PROGRAMS THAT ARE TARGET THE BASIC NEEDS AND VALUES OF A HUMAN

ABUNDANCE Operating time — 02:17:14

Most people have certain limiting beliefs, fears that do not allow them to enjoy creativity, achieve goals, and consolidate high financial rewards. As a result, it can cause intense tension, stress and other emotional states that are reflected in our body. The program helps to align attitudes towards material goods, offers a sense of joy and fulfilment as a reward for hard work. In addition, it expands the financial channel of each person.

HARMONY Operating time — 02:19:45

It has a beneficial effect on the nervous system, offering internal balance, harmony, tranquillity and concentration. It balances the psycho-emotional state, removes hidden limitations, subconscious negative beliefs, fears. It contributes to the improvement of sleeping patterns, the release of the full potential so that you can achieve your goals in the best way, it gives positive energy.

PROTECTION Operating time — 01:42:01

It is an excellent shield against negative energy, which the device neutralizes and does not allow it to harm the health and mood of the user. It is useful for people whose professions are related to working in large groups (doctors, trainers, educators, psychologists, social workers). It effectively contributes to the elimination of stress, psycho-emotional issues and the protection from electromagnetic stress, including the new 5G network.

HEALTH Operating time — 02:59:23

The program restores the functional level of the organism, restores the burdened organs and rejuvenates them. It essentially leads the organs to physical recovery from the effects of psychosomatic influence, is one of the most important programs of the device and is ideally used in conjunction with the “Harmony” program.

SLIMNESS Operating time — 01:01:36

This program eliminates the psychosomatic causes and intense fears that are factors in weight gain. The subconscious can push to food overload and, as a result, to the accumulation of extra weight as a “response” to psycho-emotional stress caused by conflicts in the family, at work, at home and to emotional dissatisfaction. In addition, the program is useful for people who want to increase their weight, as it gives a sense of inner calm, joy, which contributes to the process of proper food intake and complete assimilation.

“DEVITA ENERGY 11” 8 EXISTING AND 3 NEW PROGRAMS THAT ARE TARGET THE BASIC NEEDS AND VALUES OF A HUMAN

LONGEVITY - 5G Operating time — 01:15:01

One of the most important programs, which consists of an innovative combination of the famous Solfeggio frequencies with human DNA repair frequencies (such as 528 Hz). Based on this highly innovative combination, the program contributes to restoring the proper DNA function and takes part in the correct maintenance of health and acts as an antidote to protect DNA from the negative effects of electromagnetic radiation, from home appliances, 5G internet network etc.

As a result, the amount of vital energy, clarity of mind and mood for a healthy lifestyle increase, while at the same time creative abilities are activated.

The combination of the “Longevity - 5G” and “Protection” programs achieves on one hand the protection from the harmful electromagnetic radiation, on the other hand the elimination of any negative consequences at the level of DNA.

The combination of the programs “Health” and “Harmony” is the ultimate recipe for psycho-emotional rehabilitation, acting on both the physical body and the mental level of a human.

RELATIONSHIP Operating time — 01:16:11

Aims at harmonizing all relationships - family, personal, professional and friendly. This program expands the possibilities for communication, mutual understanding and love, eliminates conflicts and emotions that lead to introversion. For introverts, it is a useful tool for releasing possible internal “barriers” and for unfolding creativity.

ENERGY Operating time — 00:41:12

The new improved program of the device extends and stimulates the body with energy and vitality, gives strength to the organism to maintain the proper tension in its cell membrane and protects against bio- and geopathogenic agents. It contributes to the harmonious dis-

NEW PROGRAMS

tribution of energy in the body, and after many uses restarts the immune system.

ENERGY PRO Operating time — 00:09:19

The program is aimed at restoring lost energy, increasing immunity and body tone. It helps to feel a burst of strength, increase the vital potential necessary for the realization of your desires.

ANTI AGE Operating time — 03:51:05

To slow down aging, preserve youth and energy is a cherished dream of many people in different periods of history, from antiquity to the present day. To maintain a youthful face and body, women and men have resorted to various methods. “Anti age” program is another, but the most modern method of rejuvenation, which starts the process of tissue regeneration, removal of toxins from cells, recovery of the body after 50 years of age. The program has an impact not only on the physical, but also on the psychological state, allowing you to feel young, active and confident for many years.

INNER PEACE Operating time — 00:25:12

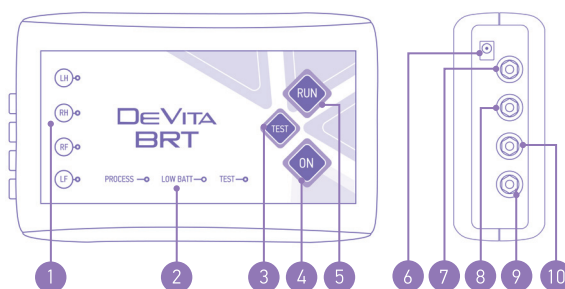

Due to various factors, actions or events of the present time, people are increasingly experiencing emotional tension, stress, accumulation of negative emotions, which negatively affects the state of health. The program helps to relieve mental tension, recover from

DEVITA BRT

DeVita BRT is a device for endogenous bioresonance correction, based on the work of F. Morell and E. Rashe. In 1977 in Germany, they proposed a new biophysical method for BRT. For the development of the method the experience of a doctor and an engineer was combined for the first time. BRT is a method of endogenous bioresonance correction using our own ultra-thin electromagnetic signals of the human body. This is a promising method of correction, contributing to the restoration of the body's defences and adaptation reserves by enhancing the harmonic (physiological) and weakening the disharmonious (pathological) electromagnetic oscillations of a person.

1. Indication of connected leads.
2. Status indication ("PROCESS" – the procedure being performed, "LOW BATT" – low battery, "TEST" – "Test" mode).
3. "TEST" – button for switching on the "Test" mode.
4. "ON" – the power button for turning on / off the device.
5. "RUN" – button for switching on the "Session" mode.
6. Connector for connecting a regular network adapter.
7. Connector (LH) for connecting the left hand cylindrical electrode.
8. Connector (RH) for connecting the right hand cylindrical electrode.
9. Connector (LF) for connecting the left plate foot electrode.
10. Connector (RF) for connecting the right plate foot electrode.

RECOMMENDATIONS FOR USE

The application is possible in addition to other methods of recovery to maintain a high health coefficient. The most effective is the complex use of endogenous and exogenous correction methods with DeVita Ritm+ and DeVita Energy 11, as they complementary and reinforce each other.

DEVITA BRT CAN BE USED TOGETHER WITH DEVITA RITM+ PROGRAMS:

ACTIVE
PROTECTION

BLOOD CIRCULATION
REGULATION

DIGESTION

ANTI-STRESS

DETOXIFICATION

FEATURES OF EXPOSURE

The action of the device is done on the entire body through biologically active points located on the skin of the palms and soles of the feet, i.e. in areas of organ projection. Promotes the recovery of the body by eliminating the disharmonious (pathological) vibrations and enhancing the harmonic (physiological). Increases the defending system and resistance to negative environmental influences, maintaining the physiological homeostasis of the body.

Advantages of DeVita BRT:

- Works with the electromagnetic oscillations of a specific person;
- No external influences are used, only the natural oscillations of a person are corrected;
- It contributes to reducing the pathological fluctuations, removes toxins;
- Activates the body's defense processes.

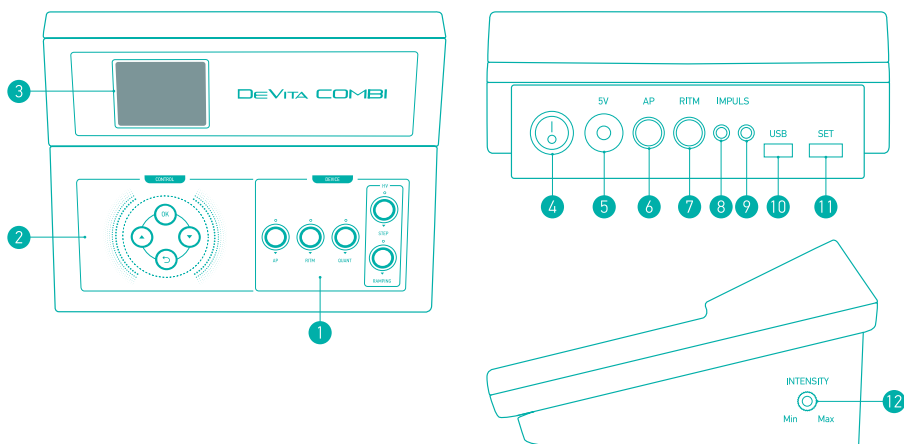

COMMON HEALTH PROBLEMS

DEVITA COMBI

DeVita Combi is a unique device of comprehensive effects developed by Deta-Elis. It combines three types of influence: electromagnetic, quantum, and electrotherapy. As an electromagnetic device, the DeVita Combi emits low-intensity electromagnetic oscillations of a precisely defined shape and frequency. The regulatory electromagnetic effect was based on many years of developments by the scientists R. Voll, H. Schimmel, A.F. Kramer and others. The immune system support (AP+), is based on the development of R. Rife and his supporters. As a quantum influence device, the DeVita Combi emits both frequencies typical of electromagnetic regulatory influence and light waves of 4 spectral colors. The DeVita Combi generates weak electrical currents (pulsed currents) as an electrotherapy device.

USAGE GUIDELINES

The DeVita Combi is a universal 5-in-1 device that can simultaneously work as a DeVita AP, DeVita Ritm, DeVita Cosmo 50, and HV STEP AND HV RAMPING. It can be used in beauty and wellness rooms, relaxation rooms, and at home.

DEVITA COMBI IS USED FOR:

IMMUNITY
SUPPORT

IMMUNE SYSTEM
SUPPORT

BODY
CLEANSING

PAIN
RELIEF

OVERALL
RECOVERY

FEATURES OF EXPOSURE

DeVita Combi is a device with several directions of action:

- It harmonizes the functioning of the organs and systems;
- It restores the body after physical and mental stress;
- It acts against viruses, bacteria, fungi, protozoa and helminths, and strengthens the action of the immune system;
- It helps to perform a deep detoxification of the body;
- It helps to maintain the immune system;
- It improves the condition of the skin and hair;
- It contributes to the elimination of inflammatory and allergic reactions;
- It takes part in pain relief.

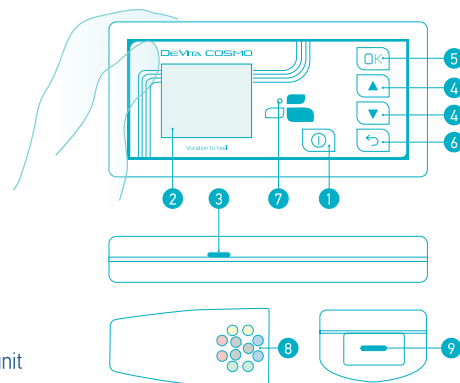

DEVITA COSMO 50

The DeVita Cosmo 50 device is a generator of weak electromagnetic radiation, identical to that of natural organic systems, as well as optical radiation. It is intended for skin care based on the harmonization and correction of natural electromagnetic radiation of natural biosystems. It utilizes both quantum and electromagnetic techniques, which mutually reinforce each other and enhance treatment effectiveness. The device can be used with or without the QUANT unit, allowing users to select the optimal mode depending on the desired settings. Thanks to 50 built-in programs, treatments are easily customizable for individual needs, making it suitable for family use.

DeVita Cosmo 50 — a domestic wellness device.

RECOMMENDATIONS FOR USE

Results from the DeVita Cosmo 50 are usually evident after 3-5 sessions. For chronic problems, it may take 10-20 daily sessions. To maintain the achieved cosmetic results, the device is used 2-3 times a week, and for health improvement — daily

DEVITA COSMO 50 SERVES TO:

MAINTAIN
YOUTHFUL SKIN

STRENGTHEN
HAIR AND NAILS

BOOST
LIFE ENERGY

IMPROVE
VISION

SUPPORT GENERAL
HEALTH

FEATURES OF EXPOSURE

DeVita Cosmo 50 combines two types of impact — electromagnetic and quantum. Quantum radiation is produced by the QUANT unit that emits infrared light and light waves in four spectral colors of visible light. The health-promoting effect of color/light is applied to the skin in the area of reflex zones. Quantum radiation has numerous indications — it improves skin tone, skin and hair structure, strengthens nails, and also promotes the health of internal organs.

Benefits of DeVita Cosmo 50:

- Harmonizes the endocrine system;
- Combats signs of aging and tightens the skin;
- Eliminates signs of inflammation, irritation, and swelling;
- Positively affects the condition of nails and hair.

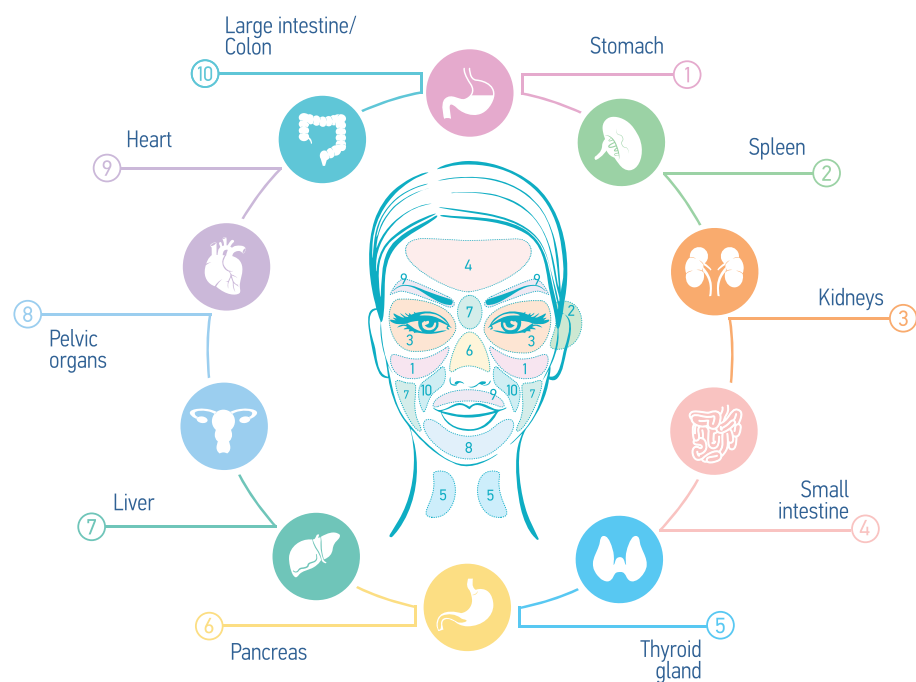

COMMON SKIN PROBLEMS

APPLICATION RULES

1. It is recommended to use the device for persons not younger than 15, minimum once a week.
 2. The quantum unit shall be placed in the zone of the projection of the treated organ. Detailed description of the zones see below.
 3. When using you need to focus on the sensation of heat or impulses coming from the adapter. If the sensation goes away you have to move the adapter to the zone of projection.
 4. The movements shall be smooth and easy, speed 1 – 2 cm/sec .
 5. The best effect to be achieved when using DeVita Cosmo 50 with our product DeLixir Collagen +.

DEPULS+

DePuls+ is the device for express test of a body's resources as per physiological and psycho-emotional signs. The unit is a user-friendly device that can be used both in recreation centers and at home for the assessment of the whole family. DePuls+ displays results with the help of vivid visualization which is clear not only for doctors but also for ordinary people who take care of their health. The testing itself lasts not more than 5 minutes. Several profiles, to be used by different people, can be set-up for a more effective estimation of a body's health.

DEPULS+ SPECIAL FEATURES

DePuls+ is the perfect choice for business development and for regular use by all members of a family. Well-timed test of the body's state. will help to preserve energy, youth and working efficiency.

DEPULS+ FUNCTIONS

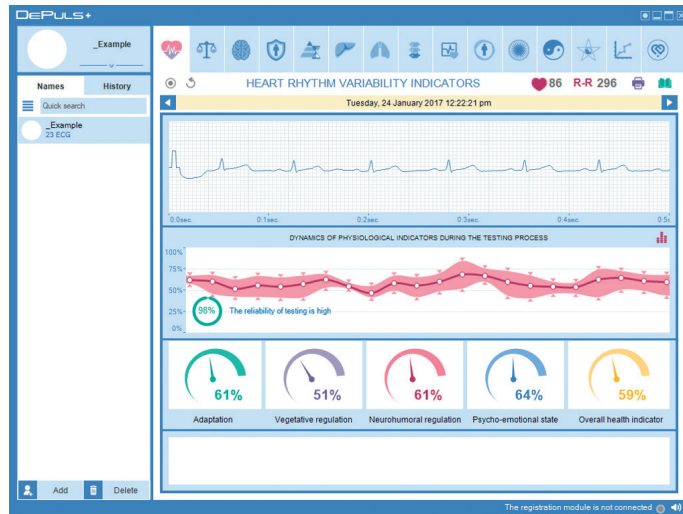

- Shows the state of a body as per physiological and psycho-emotional.
- Stores test results enabling to monitor dynamics of a body state and psycho-emotional state.
- Can be connected to almost any computer equipped with a Windows operational system; no special skills are required to interpret the readings.
- Gives overall evaluation of a body's state as per two key indicators – levels of physical and psycho-emotional reserves of a person.
- Offers rehabilitation recommendations which include the use of DeVita, DeAqua, DeMatrix and DeLixir/DeNorma products.

CARDIAC RHYTHM AND BODY'S RESOURCES

CARDIAC RHYTHM – is a general body response to the external and internal irritants.

From extreme antiquity, healers learnt to make a diagnosis using cardiac rhythm, to determine illness severity and to project its development. Pulse has four key indicators:

FREQUENCY is the number of cardiac beats within a certain period of time.

RHYTHM is the regularity of consecutive pulse waves.

FULLNESS is the filling up of an artery with the blood ejected by the heart at heart contractions.

PROCLIVITY is the value of applied force for complete compression of the artery.

Using these indicators, one can evaluate general state of health with high precision.

So, cardiac rhythm health testing is therefore one of the most informative.

HOW DO THE INGREDIENTS FUNCTION

COLLAGEN Collagen is one of the skin structural proteins. It acts like a skin supporting frame which preserves its elasticity. Collagen is vital for your joints and spine, it provides their flexibility and elasticity. Collagen content in a body decreases with aging, the skin becomes flabby and joints brittle.

DeLixir Collagen + usage will enable you to normalize collagen losses and restore your inner and outer youth.

PH-BALANCE pH Balance is the correlation of acids and alkalis in a body. It is crucial to keep acid-alkaline balance of your internal environment. However, most foods that we consume over-acidify our body. The most food products on our tables such as meat and fish, cheese, sweets, white bread and different sauces are acidic foods.

Over-acidification causes malfunctioning of a body and severe problems. DeLixir pH Balance helps you to regain the balance.

VITAMINS Vitamins and minerals are the substances vital for the functioning of your body. Their deficiency leads to more sickness and fatigue. We might have health problems. Our body gets all required vitamins and minerals from food. But modern processed food contains very small amount of these important substances.

That's why it is required to replenish the deficiency of vitamins with functional nutrition. It can be, for example, DeLixir Multi Energy.

DETOX Detox is the elimination of toxins accumulated in the body. Toxins accumulation is one of the serious problems of contemporary mankind. Poor ecology, drug abuse, infections, increased exercise cause the toxins accumulation. They impair functioning of human organs, cause continuing fatigue and apathy. They have detrimental effect on one's appearance and lower immunity.

In order to eliminate the toxins, one should undertake detoxifying procedure and consume DeLixir Detox on a regular basis.

L- CARNITINE L-carnitine contributes decisively to the rapid processing of fat to energy. It is used as a natural decomposing agent of adipose tissue. The absence of which is associated with excessive accumulation of fatty tissue. In addition, it reduces cholesterol and enhances the oxygenation process of the cells.

Combining the consumption of DeLixir Ultra Slim + with a balanced diet you will instantly and effectively reduce your weight without any effect on your health!

REJUVENATION The complex of active ingredients is specially selected for athletes and people with increased needs. The synergy of all the elements in the composition helps to restore the natural functioning of the body and blocks the action of free radicals, which contributes to longevity.

Due to its unique vitamin and mineral composition, DeLixir Top Form can charge your body with energy, slow down the aging process and strengthen the immune system.

HOW DO THE FORMULAS WORK

They give you energy and vitality. Well-balanced vitamin and micronutrient complexes packed into an easy-digested formula relieve fatigue and stress.

They help your body to remove toxins and wastes. Natural sorbents and herbal antioxidants remove accumulated toxins and enable the organs to function more efficiently.

They maintain acid-alkaline balance of your internal environment. The foods that acidify your body such as meat, milk, baked products, etc. lead to early aging and progression of disorders and diseases.

The formulas preserve your inner and outer youth. Special formula with collagen and hyaluronic acid makes your skin smooth and healthy, your muscles and ligaments elastic and strong.

Keeps the metabolism healthy while at the same time they speed up the processing of the nutrients into energy thus contributing to direct weight loss. In addition, it shields the excretory system by removing toxins and removing excessive amounts of fluid.

Increases physical and mental performance, enhances resistance to negative environmental factors, increases adaptive mechanisms, fights stress, depression and fatigue, recovers from heavy loads, colds and injuries.

DELIXIR MULTI-ENERGY IS THE CLEAN ENERGY OF VITAMINS

DeLixir Multi-Energy is a drink which fills you up with the energy of vitamins. Its formula is enriched with all required vitamins and minerals, vitamin D3, selenium and lutein are included. It also contains powerful antioxidant coenzyme Q10. Coenzyme Q10 inhibits the process of senescence, boosts supply of the cells with oxygen and builds up cardiac muscle.

Our body gets all required vitamins and minerals from food. But modern processed food contains very small amount of these useful substances. That's why it is required to replenish the deficiency of vitamins with functional nutrition. It can be, for example, DeLixir Multi-Energy.

DELIXIR ULTRA SLIM+ – STRENGTH AND HEALTH

DeLixir Ultra Slim+ is a beneficial drink that enhances the fight against obesity. Weight gain and obesity can be due to a number of factors. One of them is the inactivation of energetic metabolism and the process of burning fat. In every healthy organism, fatty acids are transferred towards intercellular disintegration with the ultimate purpose of releasing (and creating) energy. In this entire process, choline plays a main role. This nutritional ingredient inhibits the accumulation of fatty cells in the liver and participates in the metabolic process of weight management. Choline also plays a role in the production of L-carnitine, which activates the fat burning process.

DeLixir Ultra Slim + contains L-carnitine, a necessary substance for the body, as well as ingredients that promote the acceleration of metabolism and the release of excess amount of fluids such as: artichoke extract, green coffee, cayenne pepper extract.

Combining the consumption of DeLixir Ultra Slim + with a balanced diet, you will instantly and effectively reduce your weight without any side effect on your health!

BENEFITS DELIXIR ULTRA SLIM

CHOLINE Choline is a nutrient critical to many processes in human metabolism, cell structure and the synthesis of certain neurotransmitters. Scientific studies of years confirm that this particular component contributes decisively to normal metabolism and, extension to the reduction of homocysteine. Homocysteine is an amino acid produced in the body as an intermediate of metabolism, where increased amounts of it in the body are associated with risk of cardiovascular disease.

LIQUORICE The liquorice for centuries has been used for therapeutic purposes. It is not accidental, therefore, it was chosen as the a "medical plant of the year 2012", as according to studies related to Molecular Genetics and carried out by the Max Planck Institute in Berlin, they discovered that the liquorice has antidiabetic activity as they identified a group of natural substances in edible roots of the plant, amorfrutins, which have strong antidiabetic properties. Researchers have also shown that liquorice reduces blood sugar levels and, in combination with its powerful anti-inflammatory properties, makes it an ideal herb for the treatment of complex metabolic disorders.

CRANBERRIES — one of the most useful wild berries. It has several advantages:

- removes slags and toxins, cleansing the blood and lymph, improves lymph flow;
- possesses antibacterial, antipyretic, antiviral effects;
- has a strong antioxidant properties, as it is an excellent source of phytonutrients anthocyanins, proanthocyanidins, resveratrol and tannins.

TOP FORM DELIXIR

-  It contributes to muscle growth and empowerment in order to meet the demanding needs of everyday life of athletes and sportsmen
-  It promotes the maintenance of normal blood glucose levels, since chromium (high intake / 200mg at 15ml) helps people with diabetes by participating in glucose and lipid metabolism
-  It is valuable for eye health as it protects from macular degeneration and cataracts
-  Immediate and rapid recovery after intense physical exercise and after a period of cold or post-operative condition
-  Ideal as a nutritional supplement for elderly people (65+), as it restores the normally low levels of energy in their bodies. It also provides protection, reducing the risk of illnesses that are particularly common at this age and lead to severe disabilities and increased mortality

WITH MANDARIN FLAVOR

INGREDIENTS: Multi-filtered water, natural fruit juice blend from concentrates; orange, apple, mandarin, guava, papaya, lime, mango, pineapple, grape, sweetener (fructose), L-ascorbic acid, potassium citrate, calcium gluconate, magnesium gluconate, natural flavors (natural orange, natural strawberry), hydrolyzed collagen; contains the amino acids: L-glycine, L-proline, L-alanine, L-hydroxyproline, L-glutamic acid, L-arginine, L-aspartic acid, L-serine, L-lysine, L-leucine, L-valine, L-threonine, L-phenylalanine, L-isoleucine, L-hydroxylysine, L-methionine, L-histidine, L-tyrosine, L-cysteine, rhodiola rosea powder, zinc gluconate, ginseng panax c.a. meyer, caffeine anhydrous, freshness preserver (potassium sorbate, sodium benzoate), choline L-bitartrate, zeaxanthin powder, emulsifier (xanthan gum), D-calcium pantothenate, thiamine hcl, riboflavin, niacinamide, pyridoxine hcl, inositol, DL-alpha tocopheryl acetate, manganese gluconate, L-tyrosine, L-carnitine, L-glutamine, cholecalciferol, lutein, flavor (natural vanilla) 4-aminobenzoic acid, copper gluconate, sweetener (steviol glycosides), chromium picolinate, folic acid, freshness preserver (malic acid, citric acid), D-biotin, retinyl palmitate, potassium iodide, beta carotene, menaquinone, sodium selenite, cyanocobalamin.

DELIXIR TOP FORM – FOR ATHLETES AND PEOPLE WITH INCREASED REQUIREMENTS

It is an innovative beverage that helps in enhancing the demanding everyday life of athletes by offering multiple benefits to the body. Its unique formula is ideal for people over the age of 65 as it contributes to normal functioning of the nervous and immune system by participating in better mental and physical performance. Particular emphasis is given to its anti-stress function, thanks to the Rhodiola extract, which has the characteristic ability to increase levels of serotonin and dopamine and other neurotransmitters in the brain, which are responsible for the supreme feelings of euphoria and bliss. An additional important ingredient in the beverage is chromium, which is the precious ally to people who want to "build" muscle mass, reduce their weight, lower their blood sugar levels, and lower cholesterol.

DEAQUA

the key to youth AND HEALTH

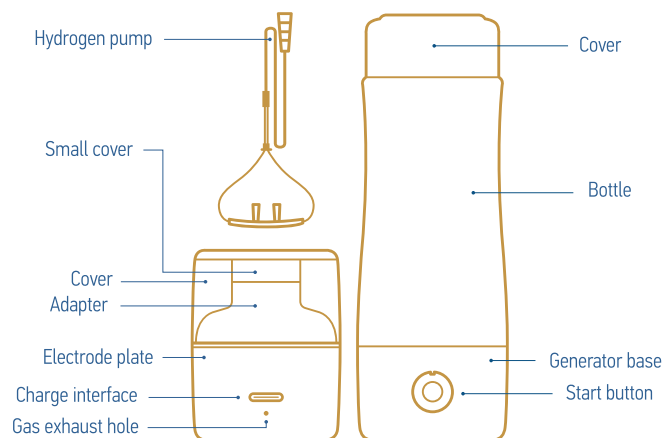

DEAQUA

DeAqua – hydrogen water generator. A powerful product that combines three different uses: drinking water with hydrogen, ozone water, inhaled hydrogen.

Product advantages: Portability, High quality- titanium electrode plate with platinum coating, bottle material is resistant, pyrex glass, long generator life

More than 340 clinical trials demonstrate the antioxidant effect of molecular hydrogen, making it every human's greatest ally against the oxidative stress caused by free radicals. As a result, water that is enriched with molecular hydrogen has a strong anti-inflammatory effect, has neuroprotective properties and slows down the aging process.

THE DAILY USE OF WATER WITH MOLECULAR HYDROGEN:

IMPROVES MEMORY,
MENTAL CLARITY AND
CONCENTRATION

FIGHTS
ALLERGIES

IMPROVES ATHLETIC
PERFORMANCE AND
INCREASES ENDURANCE

ENHANCES SKIN
TONE AND SOFTENS

CONTRIBUTES POSITIVELY
TO THE SLEEP PROCESS

STIMULATES VITALITY AND
RELIEVES FROM THE FEELING
OF CHRONIC FATIGUE

ACTION AND CHARACTERISTICS OF MOLECULAR HYDROGEN

SIZE

Molecular Hydrogen, due to its extremely microscopic size, has the ability to penetrate deep into cells and mitochondria (the cell machinery) and eliminate free radicals from their source.

SELECTIVITY

Unlike other antioxidants, which cannot distinguish harmful free radicals (hydroxyl radicals) from beneficial ones (hydrogen peroxide), molecular hydrogen selectively targets harmful free radicals and neutralizes them, thus protecting the cellular homeostasis.

SAFETY

An additional important factor of Molecular Hydrogen is that its overconsumption does not burden the organism, does not cause toxicity and does not require energy consumption to dissolve it. In contrast, overconsumption of other antioxidants puts a strain on the liver and therefore the organism needs to expend extra energy to break them down.

SYNERGY

Molecular Hydrogen while directly removing harmful hydroxyl radicals, at the same time activates the natural antioxidant enzymes of the cell (glutathione peroxidase, catalase, dismutase), the so-called cell repairers. This combined action ensures the long-term protection of the organism.

INSTRUCTIONS

1. ENRICHED WATER WITH MOLECULAR HYDROGEN

Drinking water with hydrogen

Hydrogenated water initiates the body's regenerative processes, neutralizes free radicals and removes toxins. Hydrogen is the only antioxidant that can easily penetrate cell membranes due to its low atomic weight (1), thereby rejuvenating and repairing cells damaged by harmful free radicals. It also contributes to the supply of nutrients to all cells of our body, normalizing its functions and metabolic processes.

Deaqua has antioxidant capacity from -450mV to -700mV

Water, which provides the body with energy and well-being, must have a negative oxidation reduction potential (ORP), while the ORP of tap water and bottled water ranges from +80mV to +600 mV. Water, after being enriched with hydrogen, acquires a negative ORP and now has a great antioxidant potential, thus improving the body's resistance, promoting the regeneration of tissues and cells, improving metabolism and providing extra energy.

Hydrogenated water reduces allergic reactions, improves memory, normalizes blood pressure, strengthens bones and joints, lowers cholesterol and blood sugar levels, reduces sensitivity to changing weather conditions, relieves chronic fatigue and relieves from chronic fatigue and strengthens the immune system.

2. OZONIZED WATER

Water with ozone

Ozone water is antiseptic, acidic, inactive water, bactericidal. This water can replace iodine and hydrogen peroxide. It slows down biological processes and activates cellular metabolism.

Neutralizes up to 99.9% of bacteria

Acidic water is an excellent natural disinfectant. This water destroys small parasites, germs, bacteria, fungi. Extremely disinfects the floor, fresh vegetables, fruits and more.

Antiseptic water heals wounds, dissolves toxins and waste by removing them from the body, helps fight infections, gradually dissolves tartar in the teeth, quickly treats runny nose and upper respiratory infections, gently cleanses the skin and soothes uniform tone, elasticity and freshness.

3. INHALED HYDROGEN

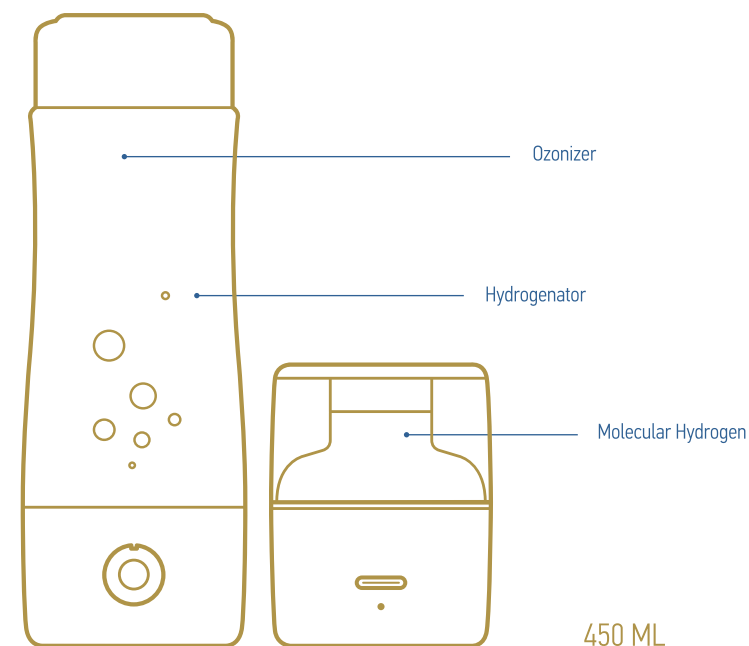

Molecular hydrogen in gas diffusion

The process of inhaling hydrogen (H₂) is performed using a nasal mask connected to the generator.

High molecular weight hydrogen (H₂)

H₂ is a small molecule that is safe for the human body and has unique properties that make it invaluable to our health. When inhaled, molecular hydrogen is absorbed in large quantities by the lungs, as well as by the brain, nervous and cardiovascular systems.

Hydrogen gas is a biologically active molecule that has many beneficial properties, such as anti-inflammatory and antioxidant. It safely removes oxygen by-products that occur during metabolism and destroys the body's oxidized cells, leading to both a variety of diseases and premature aging.

Improves the appearance of the skin and restores wounds (put ozonated water directly on the wound)

Due to its antibacterial action, use it to wash the larynx and prevent upper respiratory infections

For bad breath: Use ozonated water to rinse your mouth (gargle) and brush your teeth

It can be used as a foot bath with antifungal properties

Helps, through mouthwashes, in the treatment of gingivitis and periodontitis

For better results use the DeAqua technology in conjunction with the DeVita Energy 11 device.

Enjoy the incomparable benefits of hydrogen-enriched water that is simultaneously tuned to emotional well-being frequencies.

PSYCHOBIOITIC

BIOAVAILABILITY

DIVERSITY

In DeNorma, a unique combination of 15 specially selected probiotic strains have a beneficial effect on the whole range of male and female physiology. According to recent research, the more probiotic strains there are the more positive their impact is on the human body.

IMMUNOBIOTIC

Numerous scientific studies have demonstrated the benefits of L. Paracasei, L. Lactis and L. Rhamnosus strains, contained in DeNorma, in protecting the organism from infections of the respiratory tract and gastrointestinal tract. DeNorma also reduces the risk of acute infection, reduces the incidence of infections and their recurrence.

PSYCHOBIOITIC

The probiotic strains B. Longum, L. Plantarum and L. Helvetius, contained in DeNorma, have a proven psychotropic effect, reducing stress, depression, insomnia and cognitive impairment. These specific "psychobiotic" strains regulate transmitters and proteins that are involved in cognitive and mental functions, while participating in the synthesis of serotonin in the intestine.

BIOAVAILABILITY

DeNorma is symbiotic, consisting not only of probiotics but also of prebiotics, which are decisively involved in the colonization of the intestine. DeNorma, herbal delayed release capsules penetrate gastric juices and re-lease their contents (20 billion per capsule) into the intestine, ensuring superior bioavailability.

MECHANISM OF ACTION

PROBIOTICS

Beneficial bacteria (probiotics) prevent the growth of pathogenic microorganisms by participating in the digestion of fiber and lactose, in the production of enzymes and many B vitamins. The intestinal microflora is crucial for maintaining health because it performs the following functions:

- fights pathogenic bacteria through the mechanism of competition and production of antibacterial substances (bacteriocins, hydrogen peroxide, lactic acid, etc.)
- creates short chain fatty acids, which are the most important nutrition for intestinal cells.
- produces vitamins (K, B1, B6, B12, folic acid, pantothenic acid, etc.), which play an important role in various metabolic reactions
- regulates the immune responses of the immune system
- psychotropic probiotics can regulate neurotransmitters and proteins, including gamma-Aminobutyric acid (GABA), serotonin, glutamate and brain derived neurotrophic factor (BDNF), which play a large role in the control of learning and memory functions.

PREBIOTICS

Prebiotics, on the other hand, are indigestible carbohydrates that act as food for probiotics, as they cannot be assimilated by the human organism. When DeNorma capsules release their contents into the intestine, the probiotics are activated due to the existing moisture and colonize the space fed by the coexisting prebiotics. Based on the above, it is considered that a probiotic product without prebiotics is incomplete. DeNorma uses inulin and fructooligosaccharides (FOS) as prebiotics.

15 DIFFERENT STRAINS IN AN IDEAL COMBINATION

BIFIDOBACTERIUM BREVE: protects against yeasts and pathogenic bacteria. Decomposes fiber in order for the body to absorb it, while studies have shown that it contributes to the hydration and purity of women's skin.

BIFIDOBACTERIUM LACTIS: according to many clinical studies it inhibits pathogenic bacteria in the intestine, while decisively strengthens the immune system and fights urinary tract infections. In addition, it improves lactose tolerance and aids in fat loss.

BIFIDOBACTERIUM LONGUM: a truly psychobiotic strain, which numerous studies have shown to be associated with memory function, reduced biological and mental stress, and the fight against depression.

LACTOBACILLUS ACIDOPHILUS: one of the most essential probiotics as it offers many benefits to human health, improves gastrointestinal function, strengthens the immune system, reduces the incidence of atrial fibrillation, relieves from indigestion and diarrhea.

LACTOBACILLUS BREVIS: essential for the synthesis of vitamins D and K, while also fights *Helicobacter pylori* and its harmful effects.

LACTOBACILLUS CASEI: has a positive effect on the restoration of intestinal microbial balance, while at the same time it is beneficial in respiratory and gastrointestinal infections.

LACTOBACILLUS BULGARICUS: supports the health of the digestive system, as well as the proper functioning of the immune system. The bacteriocins it produces have been shown to kill pathogenic bacteria. Effective in matters of irritable bowel syndrome and spastic colitis.

LACTOBACILLUS PARACASEI: improves the symptoms of allergies and especially allergic rhinitis, while preventing the transmission of infectious diseases being a powerful immunobiotic.

LACTOBACILLUS HELVETICUS: reduces stress, depression and cognitive impairment. In addition it increases the levels of serotonin, norepinephrine and brain derived neurotrophic factor (BDNF), which helps brain cells live longer and is involved in neurogenesis.

LACTOBACILLUS REUTERI: found not only in the intestine but also in the oral cavity, where it fights pathogenic bacteria that cause inflammation and dental caries. Essential for good oral health, which generally leads to good health in general. In addition, it lowers LDL cholesterol levels as well as total cholesterol levels.

LACTOBACILLUS RHAMNOSUS: has the ability to adhere to intestinal epithelial cells and produces antimicrobials that inhibit pathogenic bacteria. It is beneficial for the elimination of bacteria involved in vaginal and urological infections. It strengthens the immune system and helps especially against viruses that cause diarrhea (rotavirus) and gastroenteritis.

LACTOBACILLUS PLANTARUM: reduces anxiety and depression, significantly increases dopamine and serotonin levels, while reducing inflammation levels. At the same time, it fights many species of pathogenic bacteria, including *E. Coli*.

LACTOBACILLUS SALIVARIUS: a very important probiotic strain, as it significantly strengthens the intestinal barrier and prevents leaky gut syndrome, which can significantly damage human health. As it adheres to the intestinal wall, it forms a protective coating on the lining of the intestinal wall.

LACTOBACILLUS LACTIS: excellent probiotic – immunobiotic, which has the ability to produce antimicrobial peptides that kill pathogenic microorganisms that are resistant to antibiotics, such as various enterococci and fungi. Many studies have also shown that it is effective in inflammatory bowel disease, while a recent study reports that it lowers blood pressure, LDL cholesterol and triglycerides.

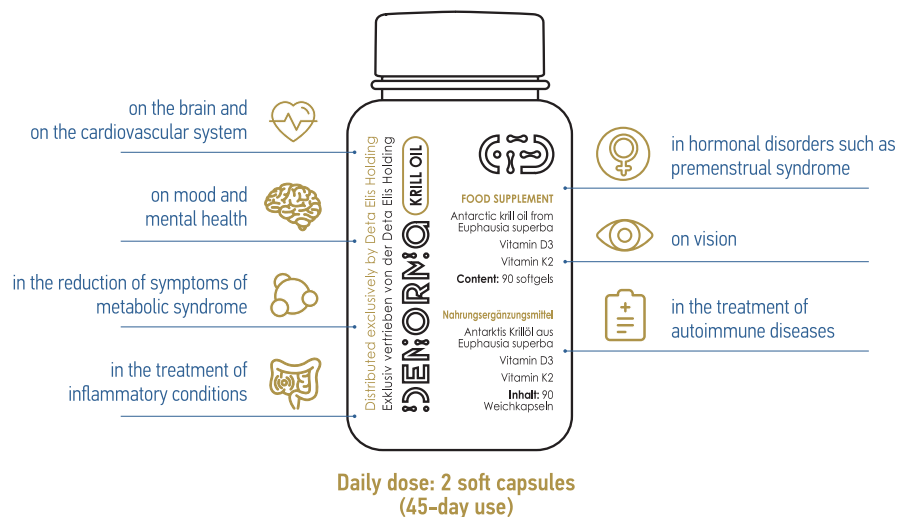

STREPTOCOCCUS THERMOPHILUS: produces large amounts of lactic acid, which drastically reduces the growth of harmful bacteria and helps prevent and treat diarrhea. It has been shown to have antioxidant and anticancerous properties. *S. thermophilus* also breaks down lactose and produces the enzyme lactase, improving lactose intolerance.

DENORMA KRILL OIL

Krill oil is a supplement extracted from a species of Antarctic krill, which is a species of zooplankton found in the Southern Ocean. The species is called Euphasia Superba and has the appearance of a small shrimp and is at the bottom of the food chain

The main action of Krill Oil is its positive effect:

THE OVERALL BENEFITS OF DENORMA KRILL OIL

The benefits of Krill Oil have been proven by many studies in recent years. The reason lies in the combination of its nutritional value in terms of its concentration of omega-3 fatty acids and its antioxidant activity due to the vitamins and astaxanthin it contains.

Many studies have shown that Krill Oil is rich in EPA (eicosapentaenoic acid) and DHA (docosahexaenoic acid), two fatty acids that are considered essential for humans. Essential fatty acids are defined as all nutrients that must be obtained from the food supply externally, as the body is unable to synthesize them from the precursor molecules.

DeNorma KRILL OIL can reduce inflammation, improve cardiovascular health, support cognitive and brain function, and even relieve symptoms of depression and anxiety. Regular consumption can also help lower levels of LDL-bad cholesterol and increase levels of HDL-good cholesterol, which can improve the health of the heart.

Overall, DeNorma KRILL OIL is a natural and sustainable source of essential nutrients that are vital for health and wellness. Its unique properties make it an excellent choice for those looking to improve their health and wellness levels.

ORIGIN & ACTION

Krill oil contains a highly concentrated amount of omega-3 fatty acids, which have been linked to an extensive list of health benefits, from reduced inflammation processes to reduced risk of chronic disease.

In addition to omega-3 fatty acids, the oil also contains fatty acids derived from phospholipids as well as astaxanthin, a powerful carotenoid with outstanding antioxidant properties.

In recent research on the effects of Krill oil on nematodes and tissue samples from Parkinson's patients, Krill oil was found to **protect dopaminergic neurons from age-related degeneration and improve cognitive function.** Degeneration of dopaminergic (DA) neurons is thought to play a key role in Parkinson's disease.

DENORMA KRILL OIL COMPARED TO REGULAR FISH OIL

1. FASTER ABSORPTION AND GREATER BIOAVAILABILITY

DeNorma Krill Oil is 45% more absorbable than ordinary fish oils, due to the phospholipids it contains. The omega fatty acids (EPA/DHA) in DeNorma Krill Oil are bound to phospholipids, which as a component of cell membranes maximize absorption and bioavailability of the ingredients. In contrast, the fatty acids in common fish oils are bound to triglycerides and this results in slow absorption by the body and at a lower rate.

2. PALATABLE, ABSENCE OF UNPLEASANT TASTE OR ODOR

DeNorma Krill Oil does not cause fishy belching with an unpleasant fishy smell, whereas fish oils do. Due to the rapid absorption of Omega-3 fatty acids in the form of phospholipids, DeNorma Krill Oil soft capsules do not leave a fishy aftertaste or odor.

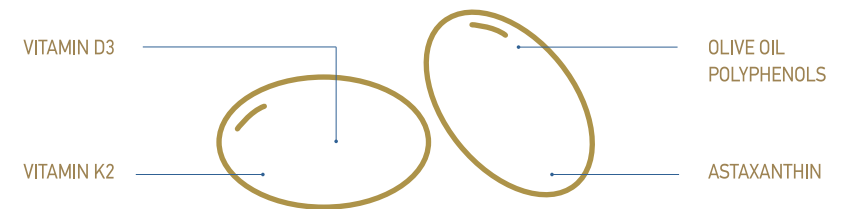

3. ECOLOGICAL HARVESTING METHOD

Another point of superiority of DeNorma Krill Oil compared to common fish oils is ecology and environmental protection. DeNorma Krill Oil is derived from krill caught in the uncontaminated waters of Antarctica using an ecological harvesting method. This ensures that krill remain a valuable natural resource available to future generations. In contrast, the production of fish oil leads to overfishing with all that this entails.

4. WITHOUT CHEMICAL PROCESSING

Krill omega fats are the purest and least chemically processed compared to other animal-derived omega fats. DeNorma Krill Oil is natural, 100% pure and unaltered, without having undergone the harsh chemical treatments of fish oils that destroy some or all of their organoleptic elements.

ENRICHED WITH BENEFICIAL NUTRIENTS

Vitamin D3- the secret weapon of nature!

- ensures good bone health
- supports the immune system
- maintains normal muscle function
- helps in the production of antimicrobial peptides

Vitamin K2- bone health!

- preserves the elasticity of the arteries
- promotes bone health
- regulates the blood clotting process
- boosts cardiovascular health

Olive oil polyphenols that contribute to:

- protection of blood lipids from oxidative stress
- maintaining normal blood pressure

Astaxanthin - the powerful antioxidant!

- reduces fatigue
- improves the appearance of the skin
- enhances male fertility
- fights arthritis

Synergy of vitamins

Taking into account very recent data from studies examining the co-administration of vitamin D3 and vitamin K2, we come to positive conclusions regarding the effect of this synergy on bone mineral density (BMD). However, the synergistic action of vitamins D3 and K2 does not seem to stop at bone tissue alone. The combination of these vitamins promotes insulin metabolism, which is valuable for the human body.

DEMATRIX – HOMEOPATHIC PENDANTS

DeMatrix for bioenergetical harmony and bio-corrective rehabilitation.

DeMatrix pendants are the new product platform of Deta-Elis, as a result of many years of experience in the use of homeopathic medicines by collaborating physicians and the company's know-how regarding therapeutic frequencies.

In each DeMatrix pendant, the synergistic action in the form of energy recordings of 4 different factors helps the body to respond to the therapeutic action and to regain its normal state both physically and mentally.

DEMATRIX MECHANISM OF ACTION

HOMEOPATHIC PREPARATIONS, according to the prescriptions and protocols of renowned doctors and academicians, which aim to strengthen the body through the mobilization of its defense processes. Homeopathy treats acute and chronic diseases, helping to cover a wide range of human pathology.

NOSODE HOMEOPATHIC PREPARATIONS containing information about viruses, bacteria and other pathogenic microorganisms in inverted form. The inversion technique aims to turn off specific infections in the human body, in order to resolve the issue facing the respective DeMatrix.

HERBAL PREPARATIONS or Phyto-preparations selected in such a way as to have a beneficial effect on the cleansing, detoxification and stimulation of the organs and different systems of the body.

FREQUENCY PROGRAMS that have been stored as information, in order to provoke the immune response from the body that will lead to its rehabilitation.

OPERATION OF DEMATRIX

- Time of use: daily during the day for 3 to 6 months, depending on how you feel.
- If necessary, the pendant can be used at night, after ensuring its direct contact with the body.
- To extend the recovery, use up to one more DeMatrix pendant or switch to DeVita Ritm+ and DeVita AP+.
- It is allowed to use up to two (2) pendants at the same time on a neck strap or on different parts of the body in any combination. In this case, it is recommended to monitor the body's reaction to the effect of the applied DeMatrix pendant combination.
- During the period of use of the pendant, it is recommended to drink at least 1-1.5 liters of clean drinking water.
- The pendant must be removed before any use of water (bath, pool, sauna, etc.)
- To extend the life of the DeMatrix, each time you remove the pendant from your body, place it in its packaging.
- There is no age limit for using the DeMatrix pendant.

CAUTION! The pendant is only suitable for individual use. DeMatrix may only be used by children under adult supervision. At first, discomfort may occur, which is a normal reaction of the body.

CONTRAINDICATIONS: Possible sensitivity to the materials of the pendant.

YOU CAN ACQUIRE THE DEMATRIX

DeMatrix **“Coronavirus Prevention”** is intended for the maintenance of human immunity, is used to prevent infections and alleviate a person's condition during the disease as an additional and complementary method of treatment, has anti-inflammatory effects and promotes the elimination of toxins.

DeMatrix **“Rehabilitation from viral infections”** is recommended after a previous bacterial or viral infection, including coronavirus. It helps the body to restore its energy potential, to reduce the toxic load, to normalize the functioning of organs and systems, to harmonize the psychological state and to activate the body's defense processes.

DeMatrix **“Detox V”** strengthens the body's resistance to pathogens, supports the immune and nervous systems, reduces the effects of poisoning (including drugs and heavy metals), reduces the toxic load, normalizes the psychological state. It is recommended to be used for at least 6 months for any inflammatory processes, in acute and chronic poisoning.

DeMatrix **“Healthy Liver”** effectively improves liver and bile duct function. It is recommended for the relief of liver strain resulting from the intake of alcohol and chemicals, as an adjunct to the main methods of treatment for fatty liver and in addition to the prevention of gallstones.

DeMatrix **“Male Health”** supports the normal function of the urinary system, participates in reducing the potential infectious load of the urogenital system, maintains the full reproductive function of men, normalizes prostate function, enhances libido and improves the quality of sexual intercourse. Recommended for use by both healthy men and men with sexual arousal problems.

DeMatrix **“Female Health”** improves blood circulation to the pelvic organs, inhibits the reproduction of pathogenic micro-flora and inflammatory processes, regulates hormonal balance, reduces pain during menstruation. It is recommended for women with painful menstruation, with an unstable cycle, also during menopause and finally when there are inflammatory processes of the reproductive system.

DeMatrix **“Healthy Kidneys”** reduces inflammation and infectious load in the urinary system, has antiseptic and diuretic action and helps prevent the formation of stones in the urinary system. It is recommended in case of problems with the urinary system, preventing the occurrence of chronic tubular interstitial nephritis.

THAT CORRESPONDS TO YOUR NEEDS, AS FOLLOWS:

DeMatrix **“Healthy Heart”** contributes to the improvement of the function of the cardiovascular system, supports the function of the heart, aims at the regulation of the heart rhythm and the adequate blood supply to the heart muscle, prevents vascular spasms and participates in the normalization of blood pressure. It is recommended for people with problems with the cardiovascular system, as well as for strengthening the heart after illnesses and during stress disorders.

DeMatrix **“Healthy Stomach”** normalizes the activity of the stomach, liver and the primary part of the intestines. It limits the reproduction of pathogenic microflora, regulates acidity, has an antispasmodic and anti-inflammatory effect. It is recommended for people who have problems with the stomach, colon, suffering from belching, heartburn.

DeMatrix **“Healthy Joints”** has analgesic and anti-inflammatory effect, reduces pain, strengthens and regenerates connective tissue, reduces pathogenic and toxic load on the musculoskeletal system. It is recommended for problems with the joints and spine.

DeMatrix **“Stop Stress”** relieves from nervous tension, successfully overcomes stress, improves the psychological state, normalizes sleep, and supports the immune and endocrine systems. Recommended for any stressful situations in everyday and professional activities.

DeMatrix **“Clean Skin”** has antifungal, antibacterial and antiviral action. Reduces inflammation of the skin and internal organs, reduces the impact of stress on the digestive, immune and endocrine systems, normalizing their work. Recommended for use by people with skin, nail and hair problems.

DeMatrix **“Healthy Pancreas”** normalizes the functioning of the pancreas and liver, has antitoxic, anti-inflammatory and regenerating effects, reduces the risk of exacerbation of chronic pancreatic diseases. It can be used as a supportive treatment for diabetes to normalize carbohydrate metabolism and blood sugar levels.

DeMatrix **“Protection from allergies”** regulates the functioning of the respiratory system, has anti-allergic, detoxifying and anti-inflammatory properties. It relieves bronchial asthma, various types of allergies (pollinosis, food and animal allergies, etc.). It can be used to prevent exacerbation of chronic bronchopulmonary diseases in the presence of risk factors (occupational hazards, smoking).

DYNAMIC WELLNESS FORMULA

DeVita Energy 11 relieves your fatigue, protects against stress, awakens your body for better activity and enables other devices to operate better with your body.

DeVita AP+ contributes to cleansing of toxins and strengthens the immune system in fighting pathogens.

DeVita Ritm+ recovers and harmonizes. Proper functioning of all organs promotes better well being and potentiates the influence of other DeVita devices.

DeLixir Detox contributes to removal of toxins and cleansing of cells. Owing to this, the effect of other DeLixir beverages becomes stronger, more efficient and faster.

DeLixir Multi-Energy energizes your body with vitamins and minerals. Required trace elements improve the metabolism, provide more intensive cleansing with Detox, and internal balance support with pHBalance.

DeLixir pH Balance maintains salutary acid-alkaline balance. It revitalizes your body enabling it to function better and removes toxins with the help of Multi-Energy and Detox.

REJUVENATION FORMULA

DeVita Cosmo 50 internally influences deep skin layers providing for collagen production, skin elasticity increase, blood circulation and metabolism enhancement. As a result, DeLixir Collagen+ nutrients are better digested.

DeLixir Collagen + nourishes your skin with collagen and hyaluronic acid. These substances are responsible for smoothness, elasticity and radiance. Proper nourishment of the cells enables your skin to respond to DeVita Cosmo impact to the utmost.

The DeAqua promotes rejuvenation, neutralizes free radicals, detoxifies the body, and is a key to overall good health and longevity.

DeNorma enhances gastrointestinal function, strengthens immunity, has a beneficial effect on physiological and psychological health.

Акт приёмки-сдачи

продукции, полученной в результате Договора возмездного оказания
услуг № 111 / 4-III от «17» августа 2015г. между ООО «ДЭТА-ЭЛИС
ХОЛДИНГ» (Заказчик) и ФГБНУ «НИИОПП» (Исполнитель)

Москва, 04.09. 2015 г.

В соответствии с условиями "Договора", "Исполнитель" по заданию
"Заказчика" провел оценку эффективности прибора «DeVita RITM, DeVita AP,
DeVita ENERGY».

Условия проведения исследования:

1. Для исследования взято 20 образцов сыворотки крови больных
терапевтического, эндокринологического, педиатрического, дерматовенерологического и
гастроэнтерологического отделений многопрофильного научно-клинического института г.
Москвы.

2. Сыворотка крови каждого пациента разделена на 6 пробирок по 100 мкл:
0 – контроль (без воздействия);
1 – общий режим;
2 – режим улучшения кровообращения;
3 – режим детоксикации;
4 – режим «Лимфодренаж»;
5 – режим повышения уровня энергии.

3. На каждый образец сыворотки крови (всего 600) было оказано
электромагнитное воздействие аппаратом «DeVita RITM, DeVita AP, DeVita ENERGY» по
заложным в нём различным программам.

4. После электромагнитного воздействия, методом клиновидной дегидратации
получали твёрдофазные структуры сыворотки крови, в которых оценивали системную и
локальную организацию непосредственно после воздействия электромагнитным полем, и
спустя сутки после воздействия. Полученные результаты сравнивали с контрольными
образцами (группа 0).

Результаты исследований

Изучены морфологические особенности фазы сывороток крови 20 пациентов в
контрольных образцах и после воздействия на них пяти режимов. Сняты 620
микрофотографий в частично-темном поле и в обычном свете при разных увеличениях
стереомикроскопа MZ12 фирмы "Leica" (x10 – x80).

EVALUATION RESULTS

DeVita devices' efficiency based upon blood serum at
Moscow Regional Research and Clinical Institute n.a. M.F. Vladimirovsky (MONIKI)

Оценка изменений структуры сыворотки крови проводилась по динамике трех
морфологических маркеров: хронической интоксикации, воспаления и активации
микроциркуляторного русла.

Установлено, что системная организация сыворотки крови всех пациентов
проявляла отклик на действие внешнего волнового источника. При этом, структуры
сыворотки крови большинства пациентов демонстрировали определённую динамику
маркеров после воздействия соответствующего режима:

- 1) морфологические признаки интоксикации при использовании режимов 1, 3, 4 и
5 исчезали или их проявление значительно снижалось;
- 2) маркер активации микроциркуляторного русла статистически значимо
выявлялся при воздействии на сыворотку крови режимов 2 и 5;
- 3) маркер воспаления в качестве ответной реакции сыворотки крови на воздействие
наиболее четко выявлялся после воздействия режима 5.

Таким образом, волновое электромагнитное воздействие в пяти режимах на
сыворотку крови человека показало соответствие изменения структуры сыворотки крови
заданному терапевтическому назначению определённого волнового спектра прибора.

Заключение:

1. Аппарат «DeVita RITM, DeVita AP, DeVita ENERGY» оказывает отчетливое
влияние на структуру сыворотки крови (по результатам анализа фазы);
2. Характер структурных изменений сыворотки крови соответствует заданным
терапевтическим режимам настройки аппарата.
