- The only mobile device in the world of endogenous bioresonance correction.
- It works only with the patient's own electromagnetic oscillations without using any external energy.
- The device receives, amplifies and also inverts and returns to the individual, his own electromagnetic oscillations.
- In this case, the correction process happens directly under the influence of "here and now".
- With the inversion, the pathological oscillations are destroyed.
- This effect promotes the elimination of endo- and exotoxins accumulated in the body.
- The normal electromagnetic oscillations of an individual during the repair process are not suppressed.
- As a result, the defense systems of the organism become more active.
- The most effective complex correction in the application of endogenous and exogenous organs.

DEVITA BRT

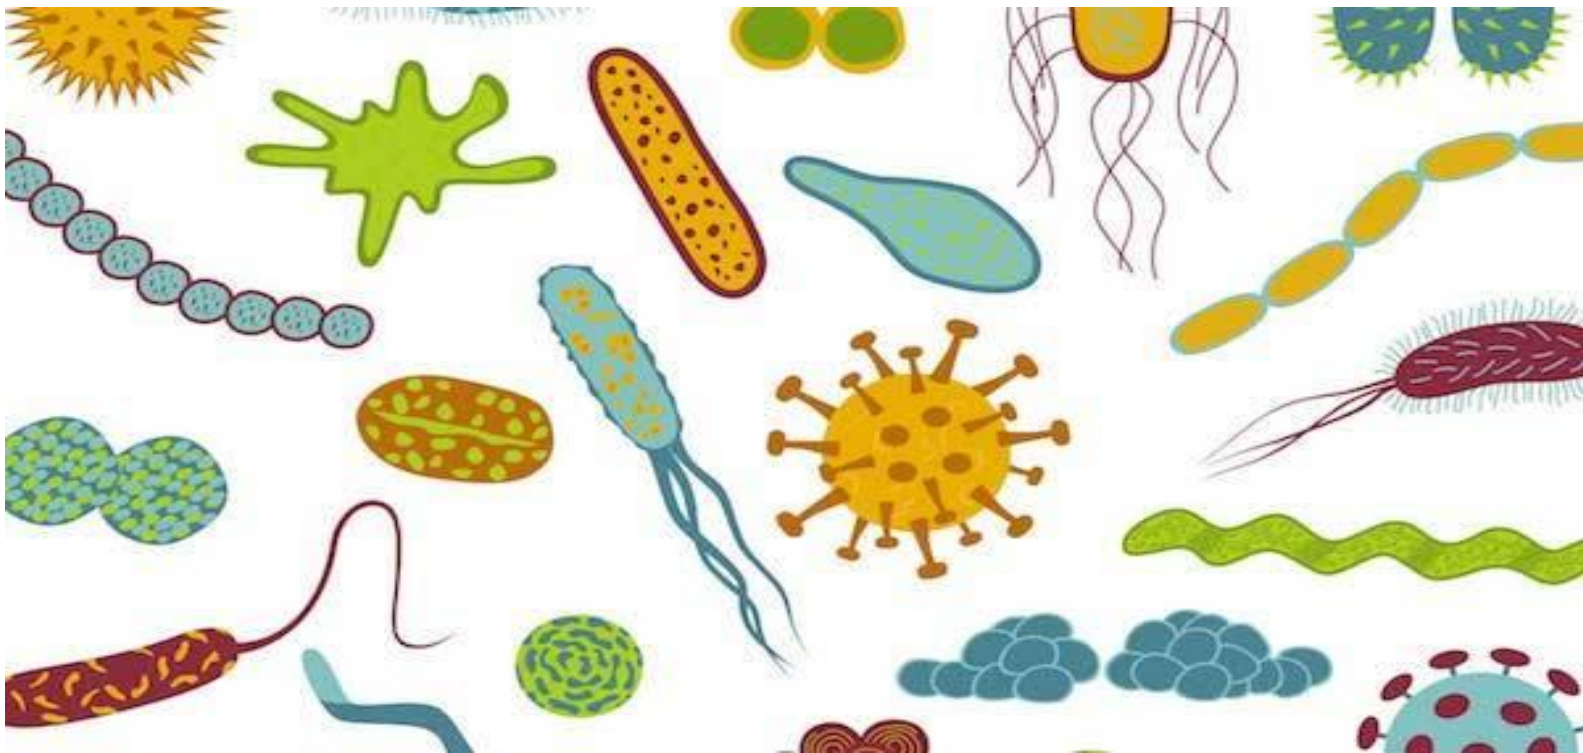

WE IMPROVE THE QUALITY OF PEOPLE'S LIVES

- It restores regularity in the mesenchyme (extracellular matrix, intracellular matrix, intronuclear matrix)
- It saves energy and balances the body, whose defense systems get stronger
- It limits the inflammation
- It disrupts pathogenic microorganisms
- It is an excellent symptomatic treatment in the acute phase of diseases
- It discharges the psychosomatic outbursts and charges
- It is decisive for smoking cessation and rehabilitation procedures

BRT - IIMITS THE INFLAMMATION BY QUENCHING THE DISHARMONIC FREQUENCIES

WITH BRT WE ERASE THE INFORMATION, AS IN THE COMPUTER WE ERASE THE FILE. BY REVERSING THE FREQUENCIES, THE COMMUNICATION OF PATHOGENIC MICROORGANISMS IS DISRUPTED, AS IF THEY ARE ASLEEP, WITH THE RESULT THAT THE ORGANISM HAS THE ADVANTAGE OF DEALING WITH THEM.
